

Join us at the JDC 2025 trade show in Marseille

from Tuesday, March 25, to Thursday, March 27, at Stand A11.

Every year, we're pleased to choose the Journées de Collections to mark our presence and share insights about our products.

This edition will be an opportunity to unveil our latest innovations, combining design and modularity. Among these innovations: the BURN kitchen and the portable electric product.

The nomad electric product.

Our first portable electric device is available in two versions: one with a grill and a wind guard, the other with a plate.

The BURN kitchen.

Given the success of our BURN gas barbecue, we have developed a fully modular kitchen in line with market expectations.

Our team will be there to discuss our new products and answer all your questions. Join us in a friendly atmosphere at Stand A11 at the JDC trade show in Marseille. Tuesday: 12h-20h Wednesday : 8h30-19h Thursday: 8h30-16h.
