

## Press Release

# Céleste Feeders: An Innovative Solution for Biodiversity

EVENA presents Céleste, a range of feeders designed for sky birds. On the occasion of the JDC Garden Trend 2025, EVENA unveils Céleste, its innovative range of feeders designed to promote appropriate feeding for birds.

Thanks to an ergonomic design and durable materials, Céleste offers an effective solution to preserve biodiversity while reducing waste. These feeders are designed to harmoniously integrate into gardens and natural spaces while ensuring optimal food distribution.

### Discover the Céleste range at our stand
