

San Lorenzo in Campo, 13 february 2024

"Fontana Gourmet on Tour 2024": Fontana Forni opens the year with a full agenda of events in Europe, where quality, Made in Italy and passion for cuisine are the protagonists.

Fontana Forni, a leading Italian manufacturer of outdoor, gas and wood-fired ovens and barbecues, is excited to announce the stages of the **Fontana Gourmet on Tour 2024**. A culinary tour that will feature several countries in Europe and several commercial partners, who, thanks to their long-standing collaborations and shared passion, have become fundamental pillars for the support of the Fontana brand and products.

The Fontana Gourmet on Tour is an opportunity to promote the art of cooking outdoors and sharing star-wellness with the people around us. A *mind-set* that goes beyond the mere use of the product: the desire is to make participants feel part of the Fontana world and of the philosophy that has distinguished the company for decades through a gastronomic experience that promotes good food and is tailored to each host country, respecting its traditions.

A **culinary journey** starting in February in Poland with Warsaw Garden Expo, continuing in March with Progetto Fuoco (Italy), Wieselburg Fair (Austria), two open days in Linsengericht (Germany) and JdC Garden Trends in Marseille (France). The tour will end in the summer in Denmark with two events, the Homeshop Grill Event in June and the Food Festival in September.

After the **Polish trade fair** (Warsaw, **14th-16th February**) organised by Fontana's official partner, **Lofra**, which welcomes all experts in the garden sector, one of the most eagerly-awaited events of the tour is '**Progetto Fuoco**', the biennial appointment hosted in Verona, Italy, the country where Fontana Forni has its origins. From **28th February to 2nd March**, several global players will participate at the event, during which Fontana Forni will display a range of novelties in **Hall 4, Stand B75** and, on 29th February at 1 p.m., will entertain its visitors with a fantastic cooking show by chef **Simone Finetti**.

This will be followed by the **AB HOF**, an event led by Fontana Forni's official importer for Austria, [Loder Fire](#), from **8th to 11th March in Wieselburg** (Austria). Stand 978 in Hall 9 will host a wide selection of products and the show of Italian pizza maker **Danilo Pagano**, world acrobatic pizza champion.

The next stop will be **Germany**, where once again we will see Danilo Pagano perform a unique show. The German importer, [La Bottega Toscana](#), will open the doors of its showroom in **Linsengericht** (Gewerbepark Birkenhain 2) on **22nd and 23rd March**. Two whole days dedicated to the presentation of Fontana products: on the first day, the invitation is extended to all sector professionals who want to learn more about or get in touch with the brand, on the second to all end consumers looking for a new oven or barbecue for their garden or balcony.

Two days later, from Germany we fly to the south of **France**, where, from **26th to 28th March**, Fontana Forni will be present at **JdC Garden Trends**, at **stand L23** of Parc Chanot Congrès & Expositions in **Marseille**. The French maritime city gathers every year all the players in the garden industry who present the year's novelties to the managers of centralised stores (GSA, garden centers, GSBs, e-shops, etc.) and independent shops, as well as landscapers.

The **Fontana Gourmet on Tour** will conclude in the summer with two exclusive events in **Denmark**, organised and made possible thanks to the collaboration with the official Danish importer [In|Out living](#).

The first event, the **Homeshop Grill Event** will be held on **1st June** in Kjellerup (Industriparken 16- DK8000), while the second will be the big closing event of the tour: the **Food Festival** in Aarhus from **6th to 8th September**. The Food Festival covers an area of 50,000 sqm and welcomes around 30,000 visitors each year, offering a rich calendar of events: from the culinary proposals of participating companies to dedicated workshops. In short, during the three days of gastronomic experiences that animate Aarhus in September, Fontana Forni will participate with a dedicated stand, full of surprises.
